Pomona®

Model 2305 Insulated Low Thermal EMF Spade Lug

FEATURES:

- To ensure accurate low voltage or high resistance precision measurements, Pomona's durable Model 2305 features heavy duty construction with a gold plated tellurium copper base.
- The tellurium copper/gold material combination offers superior conductivity and low oxide build-up and minimizes the thermoelectric effect, thus ensuring accurate readings in the nano-volt or 10⁹ ohmic range.
- The spade lug attaches to shunt terminals, standard binding posts or ¹/₄" screws. For meter attachment, the Model 2305 is designed with an insulated standard banana jack which will interface to Pomona's Low EMF Retractable Sheath Banana Plug Cord Model 5291.

MATERIALS:

Spade Lug Body – Tellurium Copper, Alloy 145, Gold Plated per MIL-G-45204 Banana Jack – Tellurium Copper, Alloy 145, Gold Plated per MIL-G-45204 Insulation – ABS Molded to Banana Jack and Spade Lug Body Colors: Black and Red, Marking: "Pomona Electronics, Calif." **RATINGS:** Operating Temperature: +50°C (+122°F) Operating Temperature: +50°C (+122°F) Operating Voltage – 5000 VDC Current: 15 Amperes **ORDERING INFORMATION:** Model 2305 Package includes one black, one red spade lug

All dimensions are in inches. Tolerances (except noted): $.xx = \pm.02^{\circ}$ (,51 mm), $.xxx = \pm.005^{\circ}$ (,127 mm). All specifications are to the latest revisions.
